The subcommittee discussed general ideas for the upcoming communications timeline. The subcommittee agreed that periodic updates will be made to the landing page of the website based on when milestones occur.

The subcommittee agreed that Q+A will be developed as committee members receive questions from members of the public.

The subcommittee discussed a potential "Topping Off" ceremony, where individuals can sign the final steel beam that will be placed. This will likely occur in May. A Newsletter will be sent out in April with relevant project updates and to advertise the upcoming "Topping Off" ceremony.

Nelson Reis presented drone pictures of the construction site to the subcommittee. The website will be updated to include these images.
