Compost Bin Sale

What is a compost bin?

A compost bin is a container, specifically designed and engineered for the collection and processing of organic materials into nutrient rich compost or humus. The finished compost or humus harvested from a compost bin through the composting process of decomposition is an excellent soil amendment providing much needed enrichment for your soil. A compost bin has features that enhance the decomposition process and help make your commitment to composting more efficient.

Why use a compost bin?

- Make your own soil amendment
- Go chemical & fertilizer free
- Improve and enrich your soil and gardens, lawns, trees, shrubs & houseplants
- Help plants resist disease
- Help your household and municipality save on collection and disposal.

How do I order a compost bin?
